

TheOchoWorld (T8W) — White Paper v1

1. Project Information / Vision

Mission:

To be a token with gradual, consistent growth while always prioritizing the community as the primary beneficiary.

Vision:

To become a globally recognized token that rewards holders for responsible management and long-term engagement, aiming for a fully decentralized structure by 2030.

Purpose of the Token:

T8W is the currency of the TheOchoWorld ecosystem. It can be used in our video games, purchase videos, music, merchandise, and partner stores.

Core Values:

- Not a meme token — a utility token energized by the community.
- Facilitates internal transactions and commerce within TheOchoWorld ecosystem.
- Represents dedication, individuality, and the passion of our gamer, geek, and otaku communities.
- Promotes a culture where being different is celebrated and supported by a community.

2. Tokenomics

Total Supply: 8,880,000,000 T8W

Maximum Supply: 8,880,000,000 T8W (no additional minting planned)

Initial Distribution: 1% allocated for early operations / treasury.

Fee Structure (applied on transfers):

Purpose	Fee (%)	Function
Burn	0.03%	Reduces circulating supply (deflationary)

Purpose	Fee (%)	Function
Donations	0.02%	Supports community-selected charities
Reinvestment / Treasury	0.01%	Funds project development and operations
Auto Liquidity	0.01%	Adds stability to liquidity pools
Buyback	0.01%	Reduces selling pressure

Note: Fees are adjustable by the treasury multisig within a safe maximum of 0.8%.

Liquidity Policy:

- Liquidity is managed monthly according to the pool status and the number of new holders.
 - Any received tokens for donation or reinvestment are routed back to the liquidity pool to maintain stability.
 - Ensures that T8W is always available for new holders without unnecessary volatility.
-

3. Multisig Wallet Transparency

- **Treasury (Multisig):** 0x0d076b73665C1C844Cd70e4B8f7D52c7597559Ca
- **Donations Wallet:** 0x0d076b73665C1C844Cd70e4B8f7D52c7597559Ca
- **Liquidity Wallet:** 0xD253B89Dbf0D2140fD61B3eBeecCd94EFF6f39B0
- **Buyback Wallet:** 0xD253B89Dbf0D2140fD61B3eBeecCd94EFF6f39B0

All treasury and donation operations are executed via a multisig smart contract to ensure transparency and security.

Why the contract has not been renounced yet:

- The team actively manages liquidity, reinvestments, and buybacks to grow the token steadily.
 - Historical examples show that tokens left unmanaged after renouncing ownership often fail or collapse.
 - T8W aims to grow sustainably, building community trust and increasing utility before renouncing control.
-
